

## **High Points University:**

"Steve Wozniak's wit and whimsy inspires our students at High Point University to be creative, to be innovative, keep working at a problem, and to have fun doing it!"

-Dr. Daniel Hall, *Dean, School of Business*

Woz showed that setbacks don't define us—they help shape us into who we are meant to become. And sometimes, all it takes is finding our own Steve Jobs—someone who shares the same goals, mindset, and aspirations.

Woz is one of the most influential people of our time, and I will forever remember this experience and take with me his life lessons. I'm deeply grateful to High Point University for giving me the opportunity to learn from an innovator like Steve Wozniak. It's a moment that will stay with me for the rest of my life.

-Catherine Hourihan, *Student, HPU*
